NOTE

- Please note that the list will be updated from time to time .
- Under the new system, no learning programme will be offered until it is accredited and therefore the other statuses will not apply.

DEFINITIONS OF THE ACCREDITATION STATUSES (UNDER THE OLD SYSTEM)

a) Approved – The programme is validated against set standards by experts after which the ETP is given permission to offer the programme. This means the learning programme can be offered, and learners will graduate with a qualification that is recognised. This ETP may after offering the programme for at least one academic year apply for programme accreditation.

b) Provisional Accreditation – This status is given after the validation process has identified some gaps that the ETP must close within 6 months. Meanwhile, the ETP is allowed to enrol students in the learning programme and teach them towards a recognised qualification.

c) Deferred Accreditation –the validation process has identified gaps that would need a year to close. Learners already enrolled on the learning programme when this status is attained would complete and graduate with a recognised qualification. During this period, the ETP would be under close monitoring by BQA to ensure learner protection. The ETP is not allowed to enrol new learners until the status changes to either Provisional or Full Accreditation.

d) Rejected – A programme is denied accreditation and should cease to run. Learners already enrolled on the learning programme will be transferred to an alternate ETP that provides a similar programme. The alternate ETP is normally identified at the time of application for accreditation for learner protection purposes.

e) Fully Accredited – This status is given after validation has identified no gaps on the ETP and the learning programme. The programme can be offered and will be subjected to normal monitoring by BQA.
